## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 13, 2005 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 25-28 and 49-52 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 25 and 26 recite the limitation "*a plurality of completely crystallized zeolite particles*" and "*said shaped body comprising a three-dimensional structure including pores defined between said particles.*" It does not appear that the specification as

originally filed provides support for such limitations and applicant has not detailed where in the specification such support may be found.

If applicant believes that the specification does provide support for the recitation considered by the examiner to constitute new matter, applicant is requested to point to the page and line number where such support can be found.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 25-28 and 49-52 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***
